At Petroleum Forum

Oil and Gas Industry Experts Address Meeting

There was a fairly good attendance at the Oil Forum held in the IOOF Hall Thursday evening, Oct. 31, under the sponsorship of the Canadian Petroleum Association.

Dr. B. W. Tonken was forum moderator and petroleum industry members of the panel were Doug Church, production engineer, British-American Oil Co., Pincher Creek; Bud McDonald, divisional landman, Honolulu Oil Corp.; Gordon Connell, chief petroleum engineer, Royalite Oil Co.; and Fred McKenzie, economics advisor, Hudson's Bay Oil and Gas Co., Calgary. Panel members from the district were Douglas Galbraith, representing the F.U.A., and Lee Richardson of the Surface Rights Association. Arrangements for the forum were in charge of George Wilson of the public relations staff of the Canadian Petroleum Association.

Speaking on Oil Exploration, Production and Conservation, Doug Church traced the method of determining likely spots to drill for oil, stressing that the only really conclusive test is the drilling of a wildcat well.

Mr. McDonald's talk dealt with acquiring of mineral rights from the Crown, from companies such as the CPR and from private individuals. Land men also have the job of negotiating with farmers for surface usage of land for well sites, pipeline right of way, etc.

The gas industry is faced with the problem of finding markets for surplus gas, said Gordon Connell of Royalite Oil. Supplies are ample enough to meet all needs, including export demands, for a great number of years. Natural gas reserves are growing at the rate of 10 to 15 percent yearly, and the expectation of export markets is providing greater incentive for gas search. Markets must be available for the dry gas before benefits can accrue from the various by-products such as sulphur, propane and butane, he said.

A progress report given by Fred McKenzie traced the growth of the oil industry in Alberta. The provincial government's policy has been to encourage this growth, he said, and, in return, the government, from royalties, rentals, etc., has received over three-quarters of a billion dollars since 1948. In 1946 there were 393 producing wells in Western Canada, in 1957 there are more than 9,000 producing wells, with Western Canadian oil supplying over 53% of Canada's requirements.

Among several questions asked from the floor and answered by panel speakers, one asked the cause of the shortage of propane. The answer was that the recent requisition in oil allowances meant a corresponding in by-products. The situation is expected to improve next year when new plants such as the B-A plant at Pincher Creek go into production.

A question regarding the responsibility of seismic crews for damage to water wells brought the answer that damage of this nature is normally rectified by the seismic company or the oil company it is working for.

Other points brought out in the question period were that natural gas royalties were normally 12 1/2 percent, the same as for oil and that oil wells drilled and found to be commercial producers were not abandoned.

Opening Ceremonies At New Mossleigh School

(By Mossleigh Correspondent)

The official opening of the Mossleigh School was held on Tuesday evening, Oct. 29. This school is one of the most modern school buildings in the province and the residents are very proud of it. A very large crowd was in attendance and E. Robinson acted as chairman in Mr. Thurber's absence.

The program for the evening opened with "O Canada" followed by the Invocation by Rev. R. B. Gibson and the chairman's remark when he introduced Councillor C. W. Green. J. E. Carlson, chairman of the County Council, was unable to be present.

Mrs. Paula Meadows, a former student, sang, "Bless This House." D. D. McQueen, secretary-treasurer of the County of Vulcan, gave a report on the finance of the school. A. L. Schrag, superintendent of schools, presented Elsie Leslie with the Governor-General's Medal and a cheque. Elsie received the highest marks last term in Grade IX in the County. She is the daughter of Mr. and Mrs. Roy Leslie and her teacher was Mrs. Alice Thurber.

Mr. Green introduced the special guests who included Jack Deitz and Donald McEwen, councillors, and J. M. McKay, chairman of the Educational Committee. Leonard Stevens rendered a vocal number. Mr. McKay gave a very interesting talk on school affairs. The guest speaker of the evening was L. W. Kunelius, B.Sc., M.A., High School Inspector, and he presented Erwin Miklos, the principal, with a gift from the Department of Education.

Then Mr. Miklos introduced the staff, who are: Miss A. Siracky, Mrs. Wilson, Edward West, A. L. Goodburn, Mrs. A. Thurber, Ralph Smith and Mr. Miklos. After the singing of "God Save the Queen," the class rooms were toured and coffee and doughnuts were served by the Mossleigh Home and School Association.

Devotion To Duty Rewarded

After serving as assistant night supervisor at the Holy Cross Hospital in Calgary for 13 years, Mrs. Beth Van de Wark has resigned.

Beth, who is the daughter of Mrs. W. H. Ellis of Arrowwood, graduated from the Arrowwood High School. Following her training at the Holy Cross Hospital, she did special nursing until she married in 1939. After her husband passed away in 1944, she went back on the staff of the Holy Cross Hospital, as assistant night supervisor and has served there ever since.

In appreciation of her constant and faithful service she was awarded the Florence Nightingale pin. This is a signal honor and fittingly enough, Florence Nightingale was distantly related to her grandfather Ellis.

She was honored by the night nurses who entertained for her at the home of Mrs. Floyd Nowlin, when they presented her with a lovely tooled leather handbag. The Sisters of Charity at the hospital entertained in her honor at a delightful turkey dinner.

Beth and her son, Brian, now plan to make their home on a farm at Coudor, Alta.

One fire in which 601 people died, with a financial loss of \$115 millions, would be one of Canada's greatest national disasters. That was the sum of the 1956 fires in the cities, towns, villages and countryside of Canada's 10 provinces. It does not include forest loss, estimated at \$15 million.

Sponsored By Legion

Remembrance Service Is Well Attended

Attended by about 350 town and district residents, the annual Remembrance Service sponsored by the Vulcan Branch Canadian Legion was held in the Vulcan Armouries Monday morning, Nov. 11, with Capt. and Rev. M. W. Helston, chaplain of the King's Own Calgary Regiment, as guest speaker.

Preceding the service, a parade of Canadian Legion members, Vulcan and Carmangay members of "A" Company, Calgary Highlanders, and the Vulcan Army Cadet Corps formed up in front of the Legion Hall and, led by the famous Calgary Highlanders Pipe Band under Pipe-Major Angus MacDonald, marched to the Armouries.

At the Armouries, the service was under the direction of Rev. Robert Johnson, Canadian Legion Chaplain and Anglican minister of the Wheatbelt Mission, assisted by Rev. Frank Dann of the Church of Christ. Accompanist for the hymns was Mrs. W. W. Almond.

Greetings from the Town of Vulcan were brought by Mayor William Munro. "We are proud of our town," said the mayor, "but the pride we feel today is of a different kind. It is the pride we feel for our men and women who are wearing the uniform of the Queen, who have accepted a great responsibility, who have dedicated their lives to the service of their country and are prepared to 'go all the way.' We have assembled here today to honor the memory of their comrades who did go 'all the way.'"

In his address, Capt. Helston spoke of the futility of thinking about war and aggression in this atomic world. He pointed out that many of our leaders in the Armed Forces are speaking of "when" war comes instead of "if" war comes. He declared that we must have a world dedicated to peace if we ever wish to truly have rest from conflict.

He gave in grim detail what a modern missile would accomplish in the city of Calgary and pointed out that such destruction makes mere wishing obsolete. "We, the

little people, have the opportunity to speak through our elected leaders in a democratic society. We should demand the faithful perseverance of peace by our leaders. This is the only fitting memorial we can have for the fallen of the last three wars. It is the only way in which we can show that their lives were not given in vain. The fallen believed that they were fighting for peace, and we must see that their sacrifice was not wasted," concluded the speaker.

Following the service, the parade formed up outside the Armouries under the direction of Parade Marshal Maj. R. C. R. Munro, assisted by WO2 W. G. Sutherland, and proceeded to the Memorial Stone in the Elks Memorial Park, where wreaths in memory of the fallen were laid by representatives of local organizations and of the provincial government.

The colorful band attracted much attention as they played on the street for a few minutes prior to the parade and as they led the parade. Of interest is the fact that Pipe-Major MacDonald, who has recently taken over leadership of the band, was for the past four years pipe-major of the band of the famous Lovat Scouts of Scotland. Three new drummers in the band placed 1st, 2nd and 3rd in the world's open drumming championships in Scotland in August of this year.

4-H Calf Club Elects Officers

The final meeting of Berrywater 4-H Calf Club for 1956-57 was held in the Community Centre on Friday, Nov. 1, with 15 members present.

Prizes were given out to members by P. Silbernagel, the club leader.

The club officers for 1957-58 are: Don Salken, president; Dennis Gooch, vice-president; Rose Sharpe, secretary-treasurer; Lloyd Jones, club leader. The directors of the club are Lee Richardson, Arlo Doane, George Gooch, Mrs. W. Sharpe (special convener), Pete Silbernagel.

The Lee Richardson trophy for the biggest gain of the calves was won for 1956-57 by Lloyd Jones. Spencer Burns gave a short address and received a vote of thanks for his interest in the club.

The club members all signed a get-well card to be mailed to Mrs. Bob Parslow, who is in the hospital in Calgary. Mrs. Parslow was social convener in 1956-57 for the club.

Farm Forum Resumes Talks

(Contributed)

The Gaye West Farm Forum Group met at the home of the Rudy Hubka's on the evening of Nov. 4. Topic of interest for the evening was "National Farm Policy."

The group met the week before at the John McFarlands for a preliminary get-together and to get organized for the coming winter season. A seemingly interesting line of discussions should be in order for this year.

The question, "What is the most fundamental problem in connection with your particular type of farming?" brought out the answer of price, both what the farmer receives and what he has to pay for needed items. Lower volume of sales may enter in here also, but price seemed the most fundamental.

Can a national farm policy be designed to raise the general level of agriculture and at the same time meet your needs? It was believed there could be, educating all people rural and urban of the real difficulties facing the farmers in the different areas, by adopting a two price system for our products, maybe the farmers have to adjust their price to compete internationally, but why should the general public take advantage of his farmer neighbors by buying food at lowest possible prices and selling him the goods and machinery he needs for a parity price? Organized areas should have their own policies to satisfy their requirements such as grain, potatoes, or fish producing localities.

IN MEMORIAM

RUGGLES—In memory of Archie Ruggles who passed away Nov. 5, 1954.

DEAR DAD I have tried to write a memorial of some kind or another, But when I think of you, Dad, I also think of mother. While she lives, you live too, Deep down within my heart, Pleasant memories, I have of you, You seldom were apart.

Such fellowship, and faithfulness, Have been an inspiration The example set before us should be of valuation. You shared our trials and our joys With we three girls and seven boys.

You liked your family near at hand, Where you could gaze on your happy band, Not only our face did you see, But often our hearts were revealed to thee.

Your very presence calmed our fears, From childhood on throughout the years, You always came to our beck and call.

In summer, winter spring or fall, You always rejoiced at each grandchild's birth. You eased our burdens with comfort and mirth. Among the remarks I have heard your staunch sons say How I wish I could be like dear Dad someday.

In life you always paved the way for those you loved. In death, you too went first to the eternal home above. No wonder we children look forward to the day When we shall be united on that great judgment day. We are all sinners, saved by grace, We have God's promise, we will meet face to face.

—Your daughter, Mrs. Walter Edenlof, Donald, Alta.

HABEAS CORPUS A SAFEGUARD

In many kinds of legal action a writ of Habeas Corpus is mentioned. The Habeas Corpus Act was passed in the reign of Charles II to safeguard a citizen from wrongful detention, or indefinite imprisonment at the behest of a ruler. In brief, it provides that a prisoner has the right to be told before a judge exactly why he has been arrested. If the reason for the arrest is valid, the judge must name a date for the trial; if not, the judge must free the prisoner.

Before this Act was passed it was common practise for a monarch to order the arrest of anyone who was guilty of no greater crime than displeasing him.

Raffle was won by Arnold Shumaker.

The next meeting will be held at the home of Lydia Anderson on Nov. 20, and roll call will be to bring a prize for bingo.

The hostess served a delicious lunch.

Colin Campbell who was injured in a car accident two weeks ago, was released from Vulcan hospital on Thursday and is progressing well. Best wishes are sent his way. Patsy Bartsch who was in the accident also seems none the worse for the mixup.

A start was made on Tuesday with some late combining and baling but on Wednesday morning winter was once more in control as wet snow was falling and continued all day, so it will be another week before attempts to finish can be made. Wonder if anyone thought to tell the weather-man that his forecast of another Indian summer day was all snowed under. October was a lost month and November could be another of the same. Better get your Christmas shopping done, that day of days will be here before you know it.

BRANT

Miscellaneous Shower

Miss Marion Auld of High River was the honored guest at a lovely miscellaneous shower Friday evening at the Brant church hall.

The hall was prettily decorated in a musical theme. The bride's table was decorated with the same theme, centered with a lovely bride's cake decorated with a brunette doll with bridal wreath of silver and white, surrounded by cake shaped skirt decorated with silver and white icing. It was made and decorated by Mrs. Stacy Graham.

At the opening of the shower, guests were entertained by enjoyable contests and games.

Mrs. Ed. Prater made the presentation speech and corsage and then took Marion on a short voyage to what was presumably the bank of the ocean, where she was

serenaded a solo by Mrs. Gordon Thompson, "Let the Rest of the World Go By," following by the chorus of "When My Dream Boat Comes In." During this solo, Marion pushed in her dream boat, decorated in pink and black with large musical notes of silver and black and a big white sail. The boat was heavily laden with many beautiful and useful gifts.

Her cousin, Sharon Auld, was in charge of the giftbook. Colleen Auld and Mrs. Marjorie Cartnell of Calgary, assisted with opening the gifts.

After the gifts were displayed, Marion very nicely thanked her many friends for the shower, inviting them to visit her at her new

home off the Macleod trail.

A lovely lunch was then served by the seven ladies in charge of the shower: Mrs. Ed. Prater, Mrs. Calvin Johnson, Mrs. Ernie Green, Mrs. Earl Bateman, Mrs. Frank Sellars, Mrs. Stacey Graham and Mrs. Karl Christofferson.

Hi, neighbour

**Here are some handy tips on
storing your tractor for the winter...**

they will save you time and money next spring!

First, either drain the radiator and block completely, or fill with the correct amount of anti-freeze. If storing for very long periods, also drain the entire fuel system, fuel tank, settling cup, fuel lines, screens and carburetor. Remember, fuel left in the tractor for a long period of time may form harmful gum deposits.

Next, remove the spark plugs and squirt light engine oil into each cylinder. Oil the valves and valve mechanism, then turn the engine over a few times to distribute the oil. This prevents rust and corrosion internally.

Now, lubricate the tractor thoroughly to remove any old grease which may contain moisture, acids or other impurities. Wash and clean the dirt off the outside of the tractor... and paint over any bare spots to prevent rust. Make sure the battery is fully charged and stored in a warm, dry place. Check frequently and recharge about once every thirty days.

Last but not least, don't let your tractor stand in the open or be a roosting place for the chickens. If you can't put it in a machine shed, then cover the tractor with a tarpaulin.

NEW PERFECTION GREATER SELECTION

HANDIEST, HEFTIEST TRUCKS ON ANY ROAD... GMC EXTRA-VALUE MONEY-MAKERS FOR '58

They're here...and how! A brand-new crop of GMC Extra-Value Money-Makers with a raft of rugged improvements that make them really big news in trucking. Some models offer a new 9000-pound front axle for even bigger loading performance...there's a bigger-than-ever range of GVW's—up to 36,000 pounds...

there are new engines, new styling, new handling ease.

In fact, there's a whole host of new reasons why you should make GMC pave your way to bigger profits. Your nearby GMC dealer has all the answers to your trucking problems. See him—soon!

Smart new functional styling

Dual headlights, new trim and new grille are just the beginning of GMC's smart, practical new styling. The windshield is bigger and wider—gives you an all 'round better view of the road ahead. Wide, wide fenders help the driver in turning and parking. And even in the smaller details, GMC styling surpasses them all.

Brand new Utility Panels

The most exciting newcomers to the GMC lineup in many a long day. GMC's new Utility Panels are exactly what truckers have been asking for...Forward Control models with steel van-type bodies in 8 and 10 foot lengths. Gross ratings go up to 10,000 pounds. And smaller wheels and tires give low loading and step heights.

GVW's up to 36,000 pounds

Gross vehicle weights go to new highs to give GMC a commanding lead in the heavy-duty field. Up to 36,000 pounds GVW is now available in W-91000 Series...ruggedly-built trucks that can really take a pounding from both the load and the road. Check body styles and features at your GMC dealer's.

New Workmaster "348" V8

This new V8 will spark a revolution in truck engines...a power plant that develops 230 horsepower and has a governed engine speed of only 3700 rpm. The engine works easily, without straining, gives you plenty of power with less wear and tear. New cylinder head and piston designs also help to increase engine efficiency.

Improved Powermatic

Powermatic was last year's big news in transmissions...an automatic unit that brought new ease and convenience to truck handling. And, in addition, Powermatic's exclusive Hydraulic Retarder made it safer on hills than any other. Now, Powermatic goes itself one better with the addition of an extra range for city conditions.

Full Air Brakes

Extra-large brake shoes mean better, safer, surer stops, especially when they're powered by GMC's new full-time compressed air chambers. Even biggest loads are handled easily and safely under emergency conditions. GMC's full Air Brakes are optional at slight extra cost on all Heavy Duty models.

WATCHING FOR TROUBLE

The driver who backs his car or truck should always make sure that there are no children near the rear of the vehicle. A toddler won't be visible in the rear view mirror if the child has wandered close to the back wheels. When children are seen playing on the street, extra alertness is called for on the part of the driver, and slowing down when near them, since a sudden impulse may take the youngsters into the road and into the path of the car.

Don't re-fuel oil stoves and lanterns while they are burning. Nor a power lawnmower when the motor is hot; the gasoline may explode. One gallon of gas blows up like 83 pounds of dynamite.
